

Workshop – 10th of October 2018 (10h00-13h30) – Brussels (House of Niedersachsen) **Innovative green port solutions in small and medium sized ports**

DUAL Ports has the pleasure of inviting you to take part in a workshop on innovative green port solutions, during the European Week of Regions and Cities in Brussels, the 10th of October. The workshop will gather maritime business developers, policy makers and business representatives, to discuss needs, challenges and innovative methods.

The chief objective of this workshop is to:

- discuss the need to improve framework conditions for eco-innovative port programmes.
- inform about the innovation potential of decarbonizing regional ports and the maritime sector through a shared eco-innovation and economic diversification in port areas.

Workshop put a spot on LNG opportunities in Skagen, Denmark

Nearly 20 contributors were on the workshop's programme to provide different perspectives and experiences with Liquefied Natural Gas (LNG) fuel. The approximately 40 participants in the workshop were both project partners and external companies seeking knowledge about LNG now and in the future.

In the spring of 2019, the Port of Zwolle will host another workshop on LNG. We will keep you updated via our newsletter and website with more information.

The Port of Vordingborg opened up to 800 visitors, displaying the sustainable expansion of the quay and port infrastructure

The Port of Vordingborg in Denmark opened up to the public on September 1st, where more than 800 visitors came by the docks and learned much more about the port, the customers and about the sustainable expansion of the quay area.
