

Full Service Container Logistics

**MCS invests
in better
container
logistics.**

How we do that?

**By putting
the container
first.**

**By being
locally
visible.**

**By choosing
low costs and
sustainability.**

What we do?

**We ship sea
containers
from and to
the north of
the
Netherlands,**

through inland
waters to
Rotterdam,

across the
entire world.

13
ships

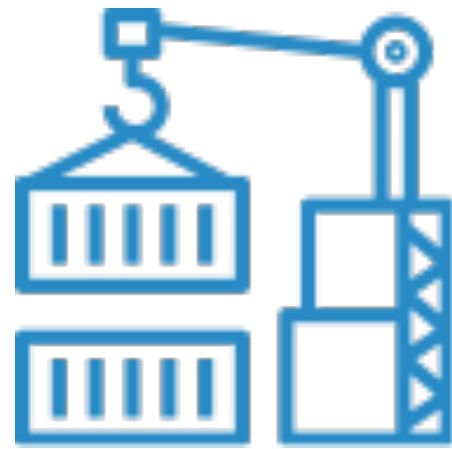

4
terminals

100
trucks

100.000
containers

WORLDWIDE

65%
market share

We are locally visible.

**Always
nearby.**

**Speak the
same
language.**

**Obviously
we aren't
doing this
alone.**

**Of course we
are involved
in local
initiatives,
sponsoring
and
charities.**

We choose low costs and sustainability.

**Inland shipping
is an efficient,
environmentally
conscious and a
cost saving way
of transport.**

**We choose for
further
sustainability
by sailing on
diesel/electric.**

The Sendo Liner.

**This way, we, as a company in
the North of the Netherlands,
take care of a better, more
sustainable and more affordable
way of container logistics.**
